EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Calif Tervo on 12/1/04.

The application has been amended as follows:

In claim 1, line 31, —in the latching position— has been inserted after "said latch plate"; and

in line 36, --with said latch plate remaining in the latching position has been inserted after "the unlocking position".

In claim 7, line 33, —in the latching position— has been inserted after "said latch plate"; and

in line 38, --with said latch plate remaining in the latching position has been inserted after "the unlocking position".

In claim 13, line 38, —in the latching position— has been inserted after "said latch plate"; and

in line 43, --with said latch plate remaining in the latching position

has been inserted after "the unlocking position".

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: in Figure 4, as shown in the attached drawing sheet, change numeral "70" in the middle of the drawing to -90—and above the portion labeled "99" and adjacent the bolt "81", insert a double headed arrow. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance: In view of the proposed limitations to claims 1,7 and 13, the claims now define over the Peccoux patent. Specifically, the main bolt 13 of Peccoux is always engaged with the latch plate and therefore the main bolt moving means 12 of Peccoux cannot move the main bolt between the locking and unlocking positions "with said latch plate remaining in the latched position" as now claimed. Accordingly, claims 1-20,22 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
